NWSC
SAFETY SEMINAR
MISSION STATEMENT

The Northwestern Showmen's Club Safety Seminar

is committed to delivering quality education and certification to meet the challenge and the need for safety awareness & training within the Amusement Industry.

We will meet or exceed the Amusement Industry standards by producing Safety Seminars, Training Sessions, and Certification for our Members and Seminar Students.

All NWSC Safety Seminars and training sessions will be taught by professionals from within the Amusement Industry who can relate to the industry's standards, and who can prepare our students to meet the demands and expectations of the amusement industry and the public, which we serve.

The Northwest Showmen's Club Safety Seminar was established 36 years ago to provide a venue to promote continued education for the Carnival Industry and to provide an annual classroom setting for raising the level of safety within the Amusement Industry by Amusement Industry Professionals.

It is the number one goal of the NWSC to inspire continued Safety to seminar attendees as a matter of habit, in their everyday jobs within the carnival industry.

The annual Northwest Showmen's Club Safety Seminar is a comprehensive safety-training experience for individuals responsible for the care and safety of the amusement industry's guests as served by the Carnival Industry. The seminar is renowned for its diverse curriculum and the quality of its volunteer instructors; classes are guided by top Amusement Industry Professionals.

NWSC SS attendees can build a tailored course curriculum that best suits their needs and the needs of their employers. Precious safety information is carried home and shared with colleagues and co-workers back on the job. Attendees also build long-lasting relationships with instructors and their counterparts across the globe. This invaluable networking opportunity enables the exchange of information between people performing the same functions within the Carnival Industry.

The NWSC SS is aligned with Portland Community College for accreditation in their Continuing Education Program, providing 4 CEU's for participation and completion of the annual seminar.

The Northwest Showmen's Club Safety Seminar has both sit-down and hands-on classes that will surely round any individual's experience.

This valued participation is a requisite for all Carnival Industry professionals of the amusement industry.
