

NAARSO 2017 ANSI B77.1 AERIAL TRAMWAYS CLASS SYNOPSIS

**AERIAL TRAMWAYS – A TWO (2) HOUR CLASS FOCUSED ON FIXED AND DETACHABLE GRIP CHAIRLIFTS AND GONDOLAS WITH DISCUSSION OF
1) ANSIB77.1 STANDARD FOR AERIAL TRAMWAYS – HOW TO USE IT AND UPDATES TO STANDARDS, 2) INSPECTION AND MAINTENANCE OF AERIAL TRAMWAYS**

Presenters:

Mary Davis, Don DiGirolamo, Jon Carrick

This class has been a long standing program focused on meeting the needs of a broad spectrum of attendees, from traveling shows to permanent parks and ski facilities along with private, insurance, and authorities who do audits and inspections as well as attendees from the US and Canada.

Outcome Objectives:

- 1st hour - Review of Proposed changes to ANSI B77.1 (work carriers, evacuation, training)
- 2nd hour Understanding the importance of proper maintenance and use of Fixed and Detachable Grip Lifts

Presentation Format:

Learning through interaction between presenters and attendees utilizing Power Point A/V to guide discussions about

- Affecting Change in National Standards (specifically ANSI B77.1)
- The importance of Work Carrier use, safety, and procedures
- Periodic (daily, weekly, monthly, annual, etc) maintenance of aerial lifts.
